

## CHILD Therapy Services

### What is CHILD?

**CHILD** is a family-focused, interdisciplinary program serving families with children from birth to age five who demonstrate developmental delays. CHILD Therapy Services staff facilitates the child's development in the areas of cognition, speech and language, social skills and motor skills, with an emphasis on the child's abilities.

The program's staff includes exceptionally well trained early intervention specialists, professional clinicians and therapists whose experiences are invaluable in establishing an environment of comfort, confidence and openness.
