Creating Opportunities for People with Disabilities

CLEARBROOK

While you cannot predict the *future*,

If you missed the presentations offered in May, here is another opportunity to learn about how a Living Trust protects you and your family. If you have already attended, please feel free to invite your family or friends.

- Carl

you can *plan* for it.

*invites you...*

to learn how a Living Trust protects you and your family.

## Did you know Living Trusts...

can keep your estate from going through the high costs and delays of probate? Unlike a Will that becomes public after your passing, a Living Trust offers total confidentiality and complete control over your assets. In addition, Living Trusts can....

- Easily be set-up
- Reduce or eliminate estate taxes
- Accelerate distribution of assets to family, friends and charity beneficiaries
- Be more difficult to contest
- Protect young families as well as older individuals

★ *A Living Trust can be put in place at no charge to you.* ★

*Did you know...*

**THAT WITHOUT A LIVING TRUST**, up to **10%** of your estate can be taken from your heirs and tie up your estate for nine months to two years or more? Incredibly, this will happen to **70%** of all Americans.
